Ship to Shore Bicycle Loop

Route Description

This short version of the Champlain Coast Caper reminds us that before good roads were built, travelers and settlers found it easier to travel by lake than over land. “Ship to Shore” swings along Lake Champlain, a historic transportation corridor that linked to land through steamship docks, railroad stations and Native American canoe routes. Today’s Lake has traded its massive steamship docks and resort hotels for wheeled wooden boat docks and vacation cottages, but the lake-side scenery remains outstanding.

There are several possible north-south routes on country roads in the area. All are nice and well worth exploring. The winds are generally from the north or south so if they are strong at least one way will really be nice. It should be noted that the only places for food and services along the route are Swanton and St. Albans Bay.

Safety Guidelines

Motorists and bicyclists share scenic roads. Use caution on narrow, winding or unpaved roadway. Follow traffic laws and ride safely. Bicycles are vehicles by law and have the right to use public roads. You are responsible for operating your bicycle under all conditions.
